D.3 / D.6	Key risks regarding the Notes / Risk Warning	<p>The key risks regarding the Notes include:</p> <ul style="list-style-type: none"> • By investing in the Notes, investors must rely on the creditworthiness of the relevant Issuer (and in the case of Notes issued by Natixis Structured Issuance SA with the benefit of the NATIXIS Guarantee, NATIXIS) and no other person. • Conflicts of interest may arise between the Issuers and any of their affiliates, on the one hand, and Noteholders, on the other. • Certain of the Dealers and their affiliates have engaged, and in the future may engage, in investment banking, commercial and/or lending transactions with the Issuer and/or the Guarantor and their affiliates, which may result in consequences that are adverse to an investment in the Notes. • The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes. • A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes. • The conditions of the Notes contain provisions for calling meetings of Noteholders which permit defined majorities to bind all Noteholders who did not attend the and vote at the relevant meeting as well as Noteholders who voted in a manner contrary to the majority. • The Notes are governed by English law, in effect as at the date of this Base Prospectus and no assurance can be given as to the impact of any possible judicial decision or change to English (or any other relevant) law after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it. • Under the terms of the Notes, the Issuer is obliged to make payments of principal and interest free and clear of Luxembourg withholding taxes only. To the extent that withholding tax is imposed on payments of principal and interest under the Notes in any jurisdiction other than Luxembourg Noteholders will receive payment only after imposition of any applicable withholding tax. • Foreign Account Tax Compliance Act withholding may affect payments on the Notes. • Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes. • The proposed financial transactions tax (FTT) would

		<p>impose FTT on each financial institution that is party to certain financial transactions. A person transacting with a financial institution which fails to account for FTT would be jointly and severally liable for that tax.</p> <ul style="list-style-type: none"> • The implementation of the Banking Resolution and Recovery Directive (the BRRD) and its incorporation into French law and Luxembourg law, or the taking of any action under it, could materially affect that value of any Notes. • Among other measures under the BRRD, resolution authorities have the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Notes) to equity, such equity being potentially subject to future cancellation, transfer or dilution by application of the general bail-in tool. The resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. Only if this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings. • French credit institutions (such as NATIXIS) must comply at all times with minimum requirements for own funds and eligible liabilities (the MREL) under Article L.613-44 of the French Code monétaire et financier. The MREL is expressed as a percentage of total liabilities and equity of the institution and aims to prevent institutions to structure their commitments in a manner which could limit or prevent the effectiveness of the bail-in tools. • The BRRD was implemented by the Luxembourg act dated 18 December 2015 (the BRR Act 2015). Natixis Structured Issuance SA, as a credit institution established in luxembroug and a subsidiary indirectly owned 100% by NATIXIS, is subject to the BRRD as implemented by the BRR Act 2015. • The Benchmark Regulation could result in an adjustment to the terms and conditions of the Notes, early settlement, valuation by the Calculation Agent, delisting or other consequences, depending on the specific provisions of the relevant terms and conditions applicable to the Notes. • Green Bonds - Investors' attention is drawn to the fact that the Issuer and the Dealers give no assurances on (i) the characteristics of the Eligible Green Assets, including their environmental and sustainability criteria, (ii) whether Eligible Green Assets will be identified and available for an investment by NATIXIS and accordingly whether the net proceeds will be effectively used for Eligible Green Assets at inception or throughout the life of the Green Bonds, or (iii) whether the Green Bonds will indeed meet certain environmental, climate and/or

This risk is in addition to any performance risk that relates to the Issuer or the type of Note being issued.</p> <p>CREST Depositary Interests</p> <p>CREST Depositary Interests (CDIs) are separate legal obligations distinct from the Notes and holders of CDIs will subject to provisions outside the Notes.</p> <p>Index Linked Notes</p> <p>Exposure to one or more indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Notes.</p> <p>Key Risks relating to the NATIXIS Guarantee</p>

		<ul style="list-style-type: none"> • The scope of the NATIXIS Guarantee is limited to Financial Instruments (as defined in the NATIXIS Guarantee) of Natixis Structured Issuance SA. The NATIXIS Guarantee is not limited to Natixis Structured Issuance SA's obligations under Notes issued by it under the Programme. • The NATIXIS Guarantee is not a 'first demand' guarantee. Any claim under the NATIXIS Guarantee must be sent in writing by a duly authorised officer of the claimant to Natixis Structured Issuance SA in accordance with the NATIXIS Guarantee. • A revocation of the NATIXIS Guarantee could affect the creditworthiness of Natixis Structured Issuance SA. • Noteholders are also exposed to NATIXIS's credit risk under the NATIXIS Guarantee. • The NATIXIS Guarantee is governed by French law and enforcing rights under it may be more difficult than enforcing a Luxembourg law governed guarantee. • There are no negative pledge or other covenants or events of default in relation to, or undertaken by, NATIXIS under the Notes or the NATIXIS Guarantee.
		<p>The key risks regarding the market generally include:</p> <ul style="list-style-type: none"> • The Notes when issued have no established trading market and one may never develop. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. • The trading market for debt securities may be volatile and may be adversely impacted by many events. • Following the United Kingdom's vote to leave the European Union there are a number of uncertainties in connection with the future of the UK and its relationship with the European Union. • As a result of fluctuations in exchange rates or the imposition of exchange controls, investors may receive less interest or principal than expected, or no interest or principal. • Any credit ratings that may be assigned to the Notes may not reflect the potential impact of all risks related to, <i>inter alia</i>, the structure of the relevant issue, the relevant market for the Notes and other factors that may affect the value of the notes • Legal investment considerations may restrict certain investments; investors and financial institutions should consult their legal and/or financial advisors and/or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital
