D.3 / D.6	Key risks regarding the Notes / Risk Warning	<p>The key risks regarding the Notes include:</p> <ul style="list-style-type: none"> • By investing in the Notes, investors must rely on the creditworthiness of the relevant Issuer (and in the case of Notes issued by Natixis Structured Issuance SA with the benefit of the NATIXIS Guarantee, NATIXIS) and no other person. • Conflicts of interest may arise between the Issuers and any of their affiliates, on the one hand, and Noteholders, on the other. • Certain of the Dealers and their affiliates have engaged, and in the future may engage, in investment banking, commercial and/or lending transactions with the Issuer and/or the Guarantor and their affiliates, which may result in consequences that are adverse to an investment in the Notes. • The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes. • Any early redemption at the option of the Issuer, if provided for in any Final Terms for a particular issue of Notes, could cause the yield anticipated by Noteholders to be considerably less than anticipated. • A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes. • The conditions of the Notes contain provisions for calling meetings of Noteholders which permit defined majorities to bind all Noteholders who did not attend the and vote at the relevant meeting as well as Noteholders who voted in a manner contrary to the majority. • The Notes are governed by English law, in effect as at the date of this Base Prospectus and no assurance can be given as to the impact of any possible judicial decision or change to English (or any other relevant) law after the date of this Base Prospectus. • If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment pursuant to the EU Savings Directive, neither the Issuer nor any Paying Agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the

		<p>imposition of such withholding tax.</p> <ul style="list-style-type: none"> • Under the terms of the Notes, the Issuer is obliged to make payments of principal and interest free and clear of Luxembourg withholding taxes only. To the extent that withholding tax is imposed on payments of principal and interest under the Notes in any jurisdiction other than Luxembourg Noteholders will receive payment only after imposition of any applicable withholding tax. • Foreign Account Tax Compliance Act withholding may affect payments on the Notes. • Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes. • The proposed financial transactions tax (FTT) would impose FTT on each financial institution that is party to certain financial transactions. A person transacting with a financial institution which fails to account for FTT would be jointly and severally liable for that tax. • The implementation of the Banking Resolution and Recovery Directive and its incorporation into French law, or the taking of any action under it, could materially affect that value of any Notes. • Unforeseen events can interrupt the Issuer's operations and cause substantial losses and additional costs. • The Issuer is exposed to credit risks of other parties. • An interruption in or breach of the Issuer's information systems may result in lost business and other losses. • It may not be possible for investors to effect service of process on the Issuer, its directors and executive officers within the United States or to enforce against any of them in the United States courts judgments obtained in United States courts. <p>Structured Notes</p> <ul style="list-style-type: none"> • the market price of the Notes may be volatile; • the Notes may receive no interest; • payment of principal or interest may occur at a different time or in a different currency than expected; • investors in the Notes may lose all or a substantial portion of their principal; • the underlying of the Notes may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
