<p>D.3 / D.6</p>	<p>Key risks regarding the Notes / Risk Warning</p>	<p>The key risks regarding the Notes include:</p> <ul style="list-style-type: none"> • By investing in the Notes, investors must rely on the creditworthiness of the relevant Issuer (and in the case of Notes issued by Natixis Structured Issuance SA with the benefit of the NATIXIS Guarantee, NATIXIS) and no other person. • Conflicts of interest may arise between the Issuers and any of their affiliates, on the one hand, and Noteholders, on the other. • Certain of the Dealers and their affiliates have engaged, and in the future may engage, in investment banking, commercial and/or lending transactions with the Issuer and/or the Guarantor and their affiliates, which may result in consequences that are adverse to an investment in the Notes. • The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes. • Any early redemption at the option of the Issuer, if provided for in any Final Terms for a particular issue of Notes, could cause the yield anticipated by Noteholders to be considerably less than anticipated. • A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes. • The conditions of the Notes contain provisions for calling meetings of Noteholders which permit defined majorities to bind all Noteholders who did not attend the and vote at the relevant meeting as well as Noteholders who voted in a manner contrary to the majority. • The Notes are governed by English law, in effect as at

		<p>the date of this Base Prospectus and no assurance can be given as to the impact of any possible judicial decision or change to English (or any other relevant) law after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.</p> <ul style="list-style-type: none"> • Under the terms of the Notes, the Issuer is obliged to make payments of principal and interest free and clear of Luxembourg withholding taxes only. To the extent that withholding tax is imposed on payments of principal and interest under the Notes in any jurisdiction other than Luxembourg Noteholders will receive payment only after imposition of any applicable withholding tax. • Foreign Account Tax Compliance Act withholding may affect payments on the Notes. • Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes. • The proposed financial transactions tax (FTT) would impose FTT on each financial institution that is party to certain financial transactions. A person transacting with a financial institution which fails to account for FTT would be jointly and severally liable for that tax. • The implementation of the Banking Resolution and Recovery Directive and its incorporation into French law, or the taking of any action under it, could materially affect that value of any Notes. • Unforeseen events can interrupt the Issuer's operations and cause substantial losses and additional costs. • The Issuer is exposed to credit risks of other parties. • An interruption in or breach of the Issuer's information systems may result in lost business and other losses. • It may not be possible for investors to effect service of process on the Issuer, its directors and executive officers within the United States or to enforce against any of them in the United States courts judgments obtained in United States courts. <p>Structured Notes</p> <ul style="list-style-type: none"> • the market price of the Notes may be volatile; • payment of principal may occur at a different time or in a different currency than expected; • investors in the Notes may lose all or a substantial portion of their principal;

		<ul style="list-style-type: none"> • the underlying of the Notes may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; • the timing of changes in an underlying of the Notes may affect the actual yield to investors, even if the average level is consistent with their expectations; and • neither the current nor the historical value of the underlying of the Notes may provide a reliable indication of its future performance during the term of any Note. <p>Index Linked Notes</p> <p>Exposure to one or more indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Notes.</p> <p>Equity Linked Notes</p> <p>Exposure to one or more shares, which present similar market risks to a direct equity investment, potential adjustment events or extraordinary events affecting shares and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Notes.</p> <p>Key Risks relating to the NATIXIS Guarantee</p> <ul style="list-style-type: none"> • The scope of the NATIXIS Guarantee is limited to Financial Instruments (as defined in the NATIXIS Guarantee) of Natixis Structured Issuance SA. The NATIXIS Guarantee is not limited to Natixis Structured Issuance SA's obligations under Notes issued by it under the Programme. • The NATIXIS Guarantee is not a 'first demand' guarantee. Any claim under the NATIXIS Guarantee must be sent in writing by a duly authorised officer of the claimant to Natixis Structured Issuance SA in accordance with the NATIXIS Guarantee. • A revocation of the NATIXIS Guarantee could affect the creditworthiness of Natixis Structured Issuance SA. • Noteholders are also exposed to NATIXIS's credit risk under the NATIXIS Guarantee. • The NATIXIS Guarantee is governed by French law and enforcing rights under it may be more difficult than enforcing a Luxembourg law governed guarantee. <p>There are no negative pledge or other covenants or events of default in relation to, or undertaken by, NATIXIS under the Notes or the NATIXIS Guarantee.</p>
		<p>The key risks regarding the market generally include:</p>

		<ul style="list-style-type: none"> • The Notes when issued have no established trading market and one may never develop. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. • The trading market for debt securities may be volatile and may be adversely impacted by many events. • Following the United Kingdom’s vote to leave the European Union there are a number of uncertainties in connection with the future of the UK and its relationship with the European Union. • As a result of fluctuations in exchange rates or the imposition of exchange controls, investors may receive less interest or principal than expected, or no interest or principal. • Any credit ratings that may be assigned to the Notes may not reflect the potential impact of all risks related to, <i>inter alia</i>, the structure of the relevant issue, the relevant market for the Notes and other factors that may affect the value of the notes • Legal investment considerations may restrict certain investments; investors and financial institutions should consult their legal and/or financial advisors and/or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. • Holders of Notes may not receive definitive Notes in certain circumstances and may need to purchase a principal amount of Notes such that it holds an amount equal to one or more Denominations in order to receive definitive Notes. <p>Investors may lose the value of their entire investment or part of it, as the case may be.</p>
