PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II product governance / Retail investors, professional investors and eligible counterparties – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. The product is incompatible for any client outside the positive target market identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials"), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market identified above. Any distributor should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Rights attached to the Notes

Governing law – The Notes are governed by English law.

The return of the Notes is calculated by reference to the Underlying Reference(s).

Description of the Underlying Reference(s):

i	Underlying	Bloomberg Code	ISIN Code	Weighting ω^i
---	------------	----------------	-----------	----------------------

1	Bayer AG	BAYN GY	DE000BAY0017	100%
2	Siemens AG	SIE GY	DE0007236101	100%

Return on the Notes will be calculated based on the following payoff formula: **Phoenix**

The Phoenix may pay a conditional or guaranteed interest amount on each Payment Date. If applicable, noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid interest amounts. Automatic early redemption may occur during the term of the Notes. On each Valuation Date indexed "t", an interest amount, paid on the Payment Date indexed "t", unless this Valuation Date falls after the occurrence of an automatic early redemption event, is calculated in accordance with the following formula:

$$\begin{aligned} \text{PhoenixCoupon}(t) &= \text{Calculation Amount} \times [\text{Coupon}_1(t) + (\text{Coupon}_2(t) - \text{MemoryCoupon}(t)) \\ &\quad \times \text{UpsideCondition}(t)] \\ \text{UpsideCondition}(t) &= 1 \text{ if } \text{BasketPerf}_1(t) \geq H(t) \\ &= 0 \text{ if not} \end{aligned}$$

Where:

Calculation Amount means EUR 1,000. **Coupon₁(t)** means 0.0000% for all Valuation Dates. **Coupon₂(t)** means, for each Valuation Date indexed "t", "t" ranging from 1 to 16: 2.0000%; 4.0000%; 6.0000%; 8.0000%; 10.0000%; 12.0000%; 14.0000%; 16.0000%; 18.0000%; 20.0000%; 22.0000%; 24.0000%; 26.0000%; 28.0000%; 30.0000% and 32.0000%

H(t) means, for each Valuation Date indexed "t", "t" ranging from 1 to 16: 60.0000%. If "H(t)" is specified as being Not Applicable, then UpsideCondition(t) = 0 in any event.

MemoryCoupon(t) means the sum of all interest amounts per Note paid prior to the Payment Date indexed «t» expressed as a percentage of the Calculation Amount.

Memory Effect is Applicable

BasketPerf₁(t) = BasketPerf(t) for each Valuation Date indexed "t", "t" ranging from 1 to 16. **BasketPerf(t)** means for a date t' the performance of the Selection. Its value is determined by the Calculation Agent in accordance with the Local Performance formula and equals to BasketPerf(t') of such formula.

Local Performance formula means: $\text{BasketPerf}(t') = \text{LocalBasketPerf}(t)$

LocalBasketPerf(t) is calculated on the date "t" in accordance with the **Worst Of** formula.

Worst of formula means the lowest ("Min") Individual Performance in the Selection, as calculated by the Calculation Agent in accordance with the following formula:

$$\text{LocalBasketPerf}(t) = \min_{1 \leq i \leq m} (\text{IndivPerf}(i, t))$$

Where: **m** means the number of Underlying References in the Selection.

In the **Worst Of** formula, **IndivPerf(i, t)** is, for the date "t" and each Underlying indexed "i", "i" ranging from 1 to 2, a term calculated in accordance with the **European Individual Performance** formula.

European Individual Performance formula means:

$$\text{IndivPerf}(i, t) = \frac{\text{Price}(i, t)}{\text{Reference Price}(i)}$$

where **Price(i, t)** means, for the date "t" the Price of the Underlying indexed "i". **Price** means the price of the Underlying indexed "i" as determined by the Calculation Agent as of the scheduled closing time on the relevant exchange.

Reference Price (i) means for the Underlying indexed "i", the price of such Underlying indexed "i", as determined by the Calculation Agent as of the scheduled closing time on 30 April 2025.

The automatic early redemption event of the Note shall occur on any Valuation Date indexed "t" where: **AutoCallCondition(t) = 1** with:

$$\begin{aligned} \text{AutoCallCondition}(t) &= 1 \text{ if } \text{BasketPerf}_2(t) \geq R(t) \\ &= 0 \text{ if not} \end{aligned}$$

Where **R(t)** means, for each Valuation Date indexed “t”, “t” ranging from 1 to 16 : Not Applicable; Not Applicable; Not Applicable; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 %; 100.0000 % and Not Applicable.

If "R(t)" is specified as being Not Applicable, then $\text{AutoCallCondition}(t) = 0$ in any event. **BasketPerf₂(t)** = **BasketPerf₁(t)**, for all Valuation Dates.

In this case, the automatic early redemption amount per Note payable on the Payment Date immediately following the Valuation Date "t" is equal to: **Calculation Amount** \times (100% + **Coupon₃ (t)** \times **UpsideCondition₂(t)**), With:

$$\begin{aligned}\text{UpsideCondition}_2(t) &= 1 \text{ if } \text{BasketPerf}_3(t) \geq H_2(t) \\ &= 0 \text{ if not,}\end{aligned}$$

Where :

Coupon₃(t) means for each Valuation Date indexed “t”, “t” ranging from 1 to 16: Not Applicable; Not Applicable; Not Applicable; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 %; 0.00000 % and Not Applicable.

H₂(t) means is Not Applicable for each Valuation Date indexed “t”, “t” ranging from 1 to 16

If "H₂(t)" is specified as being Not Applicable, then $\text{UpsideCondition}_2(t) = 0$ in any event. **BasketPerf₃(t)** = **BasketPerf₁(t)**, for all Valuation Dates.

If the Note has never been subject to an automatic early redemption, then the Final Redemption Amount per Note is equal to:

Calculation Amount \times [100 % + **Final Coupon** – **Vanilla** \times **DownsideCondition** \times (1 – **UpsideCondition₃**)], Where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_4(T)), \text{Floor}))$$

$$\text{DownsideCondition} = 1 \text{ if } \text{BasketPerf}_5(T) < B$$

$$= 0 \text{ if not}$$

and

Most material risk factors pertaining to the Guarantor

The key risks in relation to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparties risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. A deterioration in the financial markets could generate significant losses in NATIXIS' capital markets and asset management activities. In recent years, the financial markets have fluctuated significantly in a sometimes exceptionally volatile environment which could recur and potentially result in significant losses in NATIXIS' capital market and adversely impact NATIXIS'S asset management activities;
3. Should NATIXIS fail to comply with applicable laws and regulations, NATIXIS could be exposed to significant fines and other judicial, administrative, arbitral and disciplinary (including criminal) sanctions that could have a material adverse impact on its financial condition, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates. Its asset & wealth management and corporate & investment banking activities are sensitive to changes in the financial markets and, in general, to economic conditions in France, Europe and worldwide. Adverse market or economic conditions could adversely impact NATIXIS' profitability and financial position.

What are the key risks that are specific to the Notes?

The key risks that are significant for the assessment of the Notes, are set out below:

General risk factors

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): Should Natixis (as **Guarantor**) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms, it may not be able to fulfil all or part of its payment obligations under the Guarantee, if it was triggered, and the Noteholders could thus lose all or part of their initial investment.

Risk of early redemption in the event of illegality, changes in taxation or force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that the Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of the underlying asset(s) (the **Underlying(s)**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, the Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk of low or no returns The amounts of interest payable by the Issuer are linked to or make reference to changes in the Underlying(s). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying(s). If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the above-mentioned formula or indexation provisions, investors may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks relating to certain events affecting Underlying shares: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's prices. Certain events, such as, without limitation, nationalisation, insolvency, tender offer, de-listing or certain corporate events and/or disposals, affecting the Underlying or which increase the cost of borrowing such Underlying may have an impact on their price or even make it impossible to observe their performance properly. In addition, the Issuer may be required to borrow the relevant Share(s) for the purposes of hedging the Notes but at a potentially higher rate. These events constitute additional adjustment events. In these cases, the Issuer may, at its discretion, either (i) request the Calculation Agent to adjust certain terms of the Notes, or (ii) redeem the Notes at the early redemption amount equal to the fair market value of the Notes as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Notes and on the value of the Notes. Moreover, the fair market value of the Notes may be less than the redemption amount set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging positions and/or materially increased cost of hedging:: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the price, value or level of the relevant Underlying(s). In the event of a change in law, a hedging disruption, increased cost of hedging, it may become unlawful or impracticable or materially more costly for the Issuer to hold or otherwise deal with such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent to adjust certain terms of the Notes, at its discretion, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the value of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the level of the affected Underlying(s) which may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. The deferral of the observation of the level of the Underlying(s) affected or the disregarding

¹ Supervisory Review and Evaluation Process.

of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

Risk Relating to the discretionary power of the Calculation Agent: The Calculation Agent has the discretionary power to make the calculations, observations and adjustments and set out in the terms and conditions of the Notes and the interest amounts and/or redemption amounts determined or calculations made by the Calculation Agent may affect the value and any payment to be made under Notes in a way that is unfavorable to investors. The decisions of the Calculation Agent may also result in an early redemption of the Notes.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and the Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a noteholder's interests as an investor in the Notes.

A commission can be paid by Natixis to the Distributor. The commission is calculated by taking the annual percentage fee and multiplying it by the term (in years) of the Note. The annual percentage fee will be a maximum of 0.87% (all taxes included) of the nominal. The commission is paid on the Issue Date.

Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.
