PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (UK). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (the FSMA) and any rules or regulations under the FSMA to implement Directive (EU) No 2016/97, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Regulation (EU) No 2017/1129 as it forms part of domestic law by virtue of EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (as amended the UK PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE / RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority ("ESMA") on 3 August 2023, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA's policy statement entitled "Brexit our approach to EU non-legislative materials"), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (COBS), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("UK MiFIR"); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, portfolio management, non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market identified above. Any distributor should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

The statutory auditors' reports on the annual historical financial information of NATIXIS for the financial years ended 31 December 2024 and 31 December 2023 do not contain any qualifications.

Most material risk factors pertaining to the Guarantor

The key risks in relation to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit and counterparty risks in its activities. Should one or more of its counterparties fail to honor their contractual obligations, NATIXIS could suffer varying degrees of financial loss depending on the concentration of its exposure to said counterparties;
2. A deterioration in the financial markets could adversely affect NATIXIS' capital markets and asset management activities. In recent years, the financial markets have fluctuated significantly in a sometimes exceptionally volatile environment which could recur and potentially result in significant losses in NATIXIS' capital market activities and adversely impact NATIXIS' asset management activities;
3. Should NATIXIS fail to comply with applicable laws and regulations, NATIXIS could be exposed to significant fines and other judicial, administrative, arbitral and disciplinary (including criminal) sanctions that could have a material adverse impact on its financial position, business and reputation; and
4. NATIXIS is exposed to risks related to the economic conditions in which it operates. Its asset & wealth management and corporate & investment banking activities are sensitive to changes in the financial markets and, in general, to economic conditions in France, Europe and worldwide. Adverse market or economic conditions could adversely impact NATIXIS' profitability and financial position.

What are the key risks that are specific to the Notes?

The key risks that are significant for the assessment of the Notes are set out below:

General risk factors

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): Should Natixis (as **Guarantor**) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms, it may not be able to fulfil all or part of its payment obligations under the Guarantee, if it was triggered, and the Noteholders could thus lose all or part of their initial investment.

Risk of early redemption in the event of illegality, changes in taxation or force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible

¹ Supervisory Review and Evaluation Process.

or insurmountable due to the occurrence of force majeure event, the noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that the Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of the underlying asset(s) (the **Underlying(s)**). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). The Notes are linked to the worst-performing Underlying which exposes investors to higher risks, as poor performance by any single Underlying can negatively impact returns without being offset by better performance from other Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, the Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk of low or no returns The amounts of interest payable by the Issuer are linked to or make reference to changes in the Underlying(s). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying(s). The Notes are linked to the worst-performing Underlying which exposes investors to higher risks, as poor performance by any single Underlying can negatively impact returns without being offset by better performance from other Underlying(s). If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the above-mentioned formula or indexation provisions, investors may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to a "benchmark": The indices that are considered as "benchmarks" are governed by regulatory guidelines and reform proposals at national and international levels. These reforms could have effects on the methodology of some benchmarks or the continuation of such benchmarks, which may be discontinued. Such changes could have a material adverse effect on the value and the interest amounts and/or redemption amounts due in respect of Notes whose interest amounts and/or redemption amounts are linked to or make reference to that particular benchmark.

Risks relating to the occurrence of an Administrator/Benchmark Event: There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs whose effect is that certain fallback provisions shall apply (an **Administrator/Benchmark Event**). Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating investor losses resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that Noteholder consent shall not be required for application of any adjustment. If, following the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms. The above-described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying. In such cases, the Calculation Agent may, at its discretion, either (i) calculate the level of the Underlying in accordance with the formula for and method of calculating the Underlying last in effect prior to such event, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value and the interest amounts and/or redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging positions and/or materially increased cost of hedging: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the price, value or level of the relevant Underlying(s). In the event of a change in law or a hedging disruption, increased cost of hedging it may become unlawful or impracticable or materially more costly for the Issuer to hold or otherwise deal with such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent may, at the request of the Issuer, at its discretion, either to adjust certain terms of the Notes, at its discretion, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the value of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the value level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the value level of the affected Underlying(s) which may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes indexed. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

In any such case, the Issuer will notify such change to the Noteholders through a notice to the Noteholders which will be published on the NATIXIS website (<https://cib.natixis.com/Home/pims/Prospectus#/prospectusPublic>) but without having to specify any reason for this.

Most material conflicts of interest pertaining to the offer or the admission to trading of the Notes

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the same legal entity as the Guarantor and potential conflicts of interest may exist between it and the Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make that may influence the amounts payable under the Notes. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a noteholder's interests as an investor in the Notes.

Natixis may pay fees to a third party of up to 1.60% for the activity of promotion of the Certificates that the third party might perform in the period of 3 months starting from the first date of trading of the Certificates on SeDeX (the "**Relevant Period**").

Such fees would be calculated on the value of the Certificates purchased on SeDeX during the Relevant Period.

Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.

Diritti connessi alle Notes

Legge applicabile - Le Notes sono disciplinate dalla legge inglese.

Il rendimento delle Notes è calcolato mediante riferimento al/i Riferimento/i Sottostante/i.

Descrizione del/i Riferimento/i Sottostante/i:

i	Sottostante	Codice Bloomberg	Tipo	Sponsor dell'Indice	Ponderazione "W _i "
1	S&P 500®	SPX Index	Single-Exchange Index	S&P Dow Jones Indices	100%

3	Nikkei 225®	NKY Index	Single-Exchange Index	Nikkei Inc.	100%
---	-------------	-----------	-----------------------	-------------	------

Il rendimento delle Notes sarà calcolato sulla base della seguente formula di payoff: **Vanilla**

L'obiettivo di Vanilla è quello di pagare un ammontare legato alla performance della Selezione.

L'Importo di Rimborso Finale per Nota è determinato dall'Agente di Calcolo in conformità alla seguente formula:

$$\text{Importo di Calcolo} \times (100 + \text{Cedola} + \text{CedolaOpzionale})$$

Cedola CedolaOpzionale è uguale a:

$$G \times \text{Min} (\text{Cap}, \text{Max} (\text{Tipo} \times (\text{P} \times \text{PerfPaniere}(T) - K) \text{Floor}))$$

dove:

Importo di calcolo significa EUR 1,000. **G** significa 105%. **Cap** significa Non Applicabile. **Floor** significa 0%. **K** significa 100%. **P** significa 100%. **Tipo** significa 1.

PerfPaniere(T) indica per una data "t" la performance della Selezione. Il suo valore è determinato dall'Agente di Calcolo in base alla formula della Performance Locale ed è pari alla PerfPaniere(t) di tale formula.

Performance Locale indica: $\text{PerfPaniere}(t) = \text{PerfPaniereLocale}(t)$

PerfPaniereLocale(t) è calcolata alla data con indice "t" in conformità con la formula **Worst Of**.

La formula **Worst Of** indica la Performance Individuale più bassa ("Min") della Selezione, calcolata dall'Agente di Calcolo in conformità alla seguente formula:

$$\text{PerfPaniereLocale}(t) = \underset{1 \leq i \leq m}{\text{Min}} (\text{PerfIndiv}(i,t))$$

Dove: **m** indica il numero di Riferimenti Sottostanti nella Selezione.

Nella formula **Worst Of**, **PerfIndiv(i,t)** è, per la data "t" e per ciascun Sottostante con indice "i", con "i" compreso tra 1 e 3, un termine calcolato in conformità alla formula della **Performance Individuale Europea**.

Performance Individuale Europea indica:

$$\text{PerfIndiv}(i,t) = \frac{\text{Prezzo}(i,t)}{\text{Prezzo di Riferimento}(i)}$$

dove:

Prezzo(i, t) indica, per la data "t", il Prezzo del Sottostante con indice "i". Prezzo indica il livello del Sottostante con indice "i" come determinato dall'Agente di Calcolo all'orario di chiusura programmato sulla borsa rilevante.

Prezzo di Riferimento (i) indica per il Sottostante con indice "i", il prezzo di tale Sottostante con indice "i", come determinato dall'Agente di Calcolo all'orario di chiusura programmato il 19 marzo 2026.

Date di Valutazione(t) (con "t" compreso tra 1 e 1) indica 10 marzo 2031.

Date di Pagamento(t) (con "t" compreso tra 1 e 1) indica 19 marzo 2031.

Selezione indica il/i Riferimento/i Sottostante/i. **Agente di Calcolo** indica NATIXIS Calculation Agent Departement, 7, promenade Germaine Sablon, 75013 Parigi, Francia.

Le Notes possono essere rimborsate anticipatamente per illegalità, motivi fiscali o evento di forza maggiore al loro equo valore di mercato.

I pagamenti saranno effettuati tramite bonifico su un conto denominato nella valuta rilevante presso una banca della principale piazza finanziaria di tale valuta.

Fiscalità: Tutti i pagamenti relativi alle Notes saranno effettuati senza deduzione per o a Nota di ritenute alla fonte imposte dalla Luxembourg, a meno che non siano richieste dalla legge. Nel caso in cui la legge lussemburghese imponga una ritenuta alla fonte o una deduzione, l'Emittente, salvo in determinate circostanze, sarà tenuto a pagare importi aggiuntivi per coprire gli importi in tal modo trattenuti o dedotti.

Tutti i pagamenti da parte del Garante (come di seguito definito) in relazione alla Garanzia NATIXIS, saranno effettuati al netto delle ritenute alla fonte francesi, a meno che non siano richieste dalla legge. Se il Garante è costretto per legge ad effettuare una deduzione per o a Nota di

Fattori di rischio più significativi relativi al Garante

I rischi principali in relazione alla struttura e all'operatività di NATIXIS sono illustrati di seguito:

1. NATIXIS è esposta ai rischi di credito e di controparte nelle sue attività. Laddove una o più controparti non dovessero onorare i loro obblighi contrattuali, NATIXIS potrebbe subire perdite finanziarie di vario grado a seconda della concentrazione della sua esposizione nei confronti di tali controparti;
2. Un deterioramento dei mercati finanziari potrebbe generare perdite significative nei mercati dei capitali e nelle attività di gestione patrimoniale di NATIXIS. Negli ultimi anni, i mercati finanziari hanno subito notevoli fluttuazioni in un contesto talvolta eccezionalmente volatile, che potrebbe ripetersi e potenzialmente causare perdite significative nei mercati dei capitali di NATIXIS e incidere negativamente sulle attività di gestione patrimoniale di NATIXIS;
3. Laddove NATIXIS non dovesse rispettare le leggi e i regolamenti applicabili, la stessa potrebbe essere esposta a multe significative e ad altre sanzioni giudiziali, amministrative, arbitrali e disciplinari (comprese quelle penali) che potrebbero avere un impatto negativo rilevante sulla sua condizione finanziaria, sulla sua attività e sulla sua reputazione; e
4. NATIXIS è esposta ai rischi legati alle condizioni economiche in cui opera. Le sue attività di *asset & wealth management* e di *corporate & investment banking* sono sensibili alle variazioni dei mercati finanziari e, in generale, alle condizioni economiche in Francia, in Europa e in tutto il mondo. Condizioni economiche o di mercato sfavorevoli potrebbero incidere negativamente sulla redditività e posizione finanziaria di NATIXIS.

Quali sono i principali rischi specifici delle Notes?

I rischi principali che sono significativi per la valutazione delle Notes sono indicati di seguito:

Fattori di rischio generali

Rischio di volatilità delle Notes: I Portatori delle Notes sono esposti al rischio di volatilità, che si riferisce al rischio di variazioni del valore di una Nota, nonché a qualsiasi differenza tra il livello di valutazione e il prezzo di vendita delle Notes sul mercato secondario. Eventi in

² Supervisory Review and Evaluation Process (Processo di Revisione e Valutazione Prudenziale).

Francia, in Europa o altrove potrebbero causare volatilità nel mercato secondario delle Notes, che potrebbe determinare un impatto negativo sul prezzo di negoziazione o di vendita delle Notes.

Rischio relativo alla Garanzia NATIXIS (che include il riferimento al rischio di risoluzione o insolvenza del Garante): Nel caso in cui Natixis (in qualità di **Garante**) sia sottoposta a procedure di risoluzione ai sensi della normativa europea e delle norme di recepimento francesi che istituiscono un quadro per il risanamento e la risoluzione degli enti creditizi e delle imprese di investimento, potrebbe non essere in grado di adempiere in tutto o in parte ai propri obblighi di pagamento ai sensi della Garanzia, laddove fosse attivata, e i Portatori delle Notes potrebbero quindi perdere tutto o parte del loro investimento iniziale.

Rischio di rimborso anticipato in caso di illegalità, modifiche fiscali, forza maggiore o eventi di alterazione significativa: Nel caso di un rimborso anticipato delle Notes dovuto a illegalità o modifiche delle norme sulle ritenute fiscali o laddove l'adempimento degli obblighi dell'Emittente ai sensi delle Notes sia impossibile o insormontabile a causa del verificarsi di un evento di forza maggiore, i portatori delle Notes riceveranno un importo pari al valore equo di mercato delle Notes. Il valore equo di mercato delle Notes pagabile al momento del rimborso anticipato potrebbe essere inferiore all'importo inizialmente previsto dai Portatori delle Notes.

Rischio di perdita di capitale per le Notes il cui importo di rimborso è determinato con riferimento a una formula di calcolo e/o legato ad un'attività sottostante: Gli importi pagabili dall'Emittente sono legati o fanno riferimento alla performance della/e attività sottostante/i (**il/i Sottostante/i**). Tali importi possono essere determinati dall'applicazione di una formula di calcolo e da una o più osservazioni o dal verificarsi di determinati eventi in relazione al/i Sottostante/i. Le note sono collegate al Sottostante con la performance peggiore. Ciò espone gli investitori a rischi maggiori, poiché la bassa performance di un singolo Sottostante può influenzare negativamente i rendimenti senza essere compensata da migliori performance di altri Sottostanti. In caso di variazione sfavorevole della performance del/i Sottostante/i, aggravata, se del caso, dai termini della formula o dalle disposizioni di indicizzazione, i Portatori delle Notes potrebbero subire una riduzione significativa dell'importo di rimborso per le Notes o addirittura la perdita totale del loro investimento.

Rischio di rendimenti bassi o nulli Gli importi degli interessi pagabili dall'Emittente sono legati o fanno riferimento a variazioni del/i Sottostante/i. Tali importi possono essere determinati dall'applicazione di una formula di calcolo e da una o più osservazioni o dal verificarsi di determinati eventi in relazione al/i Sottostante/i. Le note sono collegate Sottostante con la performance peggiore, il che espone gli investitori a rischi maggiori, poiché le performance negative di un singolo Sottostante possono influenzare negativamente i rendimenti senza essere compensate dalle migliori performance degli altri Sottostanti. In caso di variazione sfavorevole del prezzo, del valore o del livello del/i Sottostante/i, aggravata, se del caso, dai termini della suddetta formula o dalle disposizioni di indicizzazione, gli investitori potrebbero subire una riduzione significativa del tasso di rendimento per le Notes o addirittura nessun rendimento.

Fattori di rischio relativi ai sottostanti

Rischi relativi a determinati eventi che incidono sulle attività Sottostanti: la determinazione degli importi dei premi e/o degli importi di rimborso dovuti in relazione alle Note richiede l'osservazione dei prezzi del Sottostante/i. Alcuni eventi, quali, a titolo esemplificativo, la nazionalizzazione, l'insolvenza, tender offer, de-listing o determinati eventi societari e/o cessioni, che incidono sul Sottostante o che aumentano il costo del prestito di tale Sottostante, possono avere un impatto sul loro prezzo o addirittura rendere impossibile osservare correttamente la loro performance. Inoltre, l'Emittente può essere tenuto a prendere in prestito le Azioni rilevanti per fini di copertura delle Note ma a un tasso potenzialmente più elevato. Tali eventi costituiscono eventi di aggiustamento supplementari. In questi casi, l'Emittente può, a sua discrezione, (i) chiedere all'Agente di Calcolo di adeguare alcuni termini delle Note, oppure (ii) rimborsare le Note all'importo di rimborso anticipato pari al fair market value delle Note determinato a discrezione esclusiva dell'Agente di Calcolo. L'adeguamento delle condizioni delle Note può avere un impatto rilevante sugli importi dei premi e/o dei rimborsi dovuti rispetto alle Note e sul valore delle Note. Inoltre, il fair market value delle Notes può essere inferiore rispetto all'importo di rimborso indicato nelle Note e di conseguenza gli investitori potrebbero perdere tutto o parte del loro investimento.

Rischio relativo a cambiamenti normativi o all'impossibilità di detenere posizioni di copertura e/o all'aumento sostanziale dei costi di copertura: L'Emittente stipula contratti di copertura per coprire i rischi connessi a tali Notes e in particolare le variazioni del prezzo, del valore o del livello del/i relativo/i Sottostante/i. In caso di una modifica normativa, di una turbativa della copertura o di un aumento del costo della copertura, potrebbe diventare illegale o impraticabile o molto più costoso per l'Emittente detenere o altrimenti gestire tali accordi di copertura. In questi casi, l'Emittente può scegliere di (i) chiedere all'Agente di Calcolo di rettificare alcuni termini delle Notes, a sua discrezione, oppure (ii) rimborsare tutte (ma non solo alcune) le Notes all'importo di rimborso anticipato pari al valore equo di mercato come determinato da e ad esclusiva discrezione dell'Agente di Calcolo. La rettifica dei termini delle Notes può avere un impatto rilevante sugli importi di interesse e/o di rimborso dovuti in relazione alla Nota e sul valore delle Notes indicizzate. Inoltre, tale valore equo di mercato potrebbe essere inferiore all'importo di rimborso inizialmente indicato nei termini delle Notes e di conseguenza gli investitori potrebbero perdere tutto o parte del loro investimento.

Rischi relativi all'incapacità di osservare il prezzo, valore o livello del/i Sottostante/i in caso di turbativa del mercato: La determinazione degli importi di interesse e/o di rimborso dovuti in relazione alle Notes richiede l'osservazione del valore del/dei Sottostante/i nel/nei mercato/i di riferimento o da una particolare fonte di informazioni. Possono verificarsi eventi di turbativa del mercato relativi a tali mercati che impediscono all'Agente di Calcolo di effettuare tali determinazioni. In tali casi, l'Agente di Calcolo rinverrà l'osservazione del livello del valore del/i Sottostante/i. Se l'evento di turbativa del mercato continua, l'Agente di Calcolo determinerà in buona fede il livello del valore del/i Sottostante/i interessato/i, il che potrebbe avere un impatto significativo sugli importi di interesse e/o di rimborso dovuti in relazione alla Nota e sul valore delle Notes indicizzate. Il rinvio dell'osservazione del livello del/i Sottostante/i interessato/i o la mancata considerazione del giorno in cui si è verificato un evento di turbativa del mercato può ridurre alcuni o tutti gli importi dovuti in relazione alle Notes e il valore di mercato delle Obbligazioni.

Rischio relativo al potere discrezionale dell'Agente di Calcolo: l'Agente di Calcolo ha il potere discrezionale di effettuare i calcoli, osservazioni e rettifiche e stabilire nei termini e nelle condizioni delle note e gli importi dei premi e/o gli importi di rimborso determinati o calcolati dall'Agente di Calcolo possono influire sul valore e su qualsiasi pagamento da effettuare in base alle Note in modo sfavorevole agli investitori. Le decisioni dell'Agente di Calcolo possono anche comportare un rimborso anticipato delle Note.

(il **SeDeX**). Stima delle spese totali dell'emissione: Ad eccezione della stima delle commissioni di quotazione (ossia EUR 3.000), alla Data di Emissione non è possibile determinare altre spese. Perché è redatto il presente Prospetto?

I proventi netti dell'emissione delle Notes saranno utilizzati per il prestito da parte di Natixis Structured Issuance SA (in qualità di prestatore) a NATIXIS (in qualità di prestatario) ai sensi dei termini di un contratto di finanziamento e saranno utilizzati da NATIXIS per i suoi scopi societari generali, per gli affari e per lo sviluppo commerciale.

Ricavi netti stimati pari all'importo nominale complessivo moltiplicato per il Prezzo di Emissione.

Conflitti di interesse più rilevanti relativi all'offerta o all'ammissione alla negoziazione delle Notes.

Il dealer e le sue affiliate possono essere state coinvolte, e potrebbero in futuro essere coinvolte, in operazioni di *investment banking* e/o *commercial banking* con, e potrebbero prestare altri servizi a favore di, l'Emittente e il Garante e le loro rispettive affiliate nel corso della normale attività.

Diverse entità all'interno del gruppo BPCE (tra cui l'Emittente e il Garante) e le società affiliate svolgono diversi ruoli in relazione alle Notes, tra cui Emittente delle Notes, e potrebbero anche essere coinvolte in attività di negoziazione (comprese le attività di copertura) relative al Sottostante e ad altri strumenti o prodotti derivati basati sul o relativi al Sottostante, che potrebbero dare origine a potenziali conflitti di interesse.

NATIXIS, che agisce in qualità di *arranger*, *permanent dealer* e Agente di Calcolo, è un'affiliate dell'Emittente e la medesima entità giuridica del Garante e potrebbero esistere potenziali conflitti di interesse tra la stessa e i Portatori delle Notes, anche in relazione a certe determinazioni e giudizi che l'Agente di Calcolo deve effettuare e che possono influenzare gli importi pagabili ai sensi delle Notes. Gli interessi economici dell'Emittente e di NATIXIS in qualità di *arranger* e *permanent dealer* sono potenzialmente avversi agli interessi di un portatore di Notes in qualità di investitore nelle Notes.

NATIXIS potrebbe pagare una commissione ad una parte terza per una percentuale del 1,60% per l'attività di promozione delle Notes che la parte terza potrebbe svolgere nel periodo di 3 mesi dalla data di inizio negoziazione delle Notes sul SeDeX (il "Periodo Rilevante"). Tale commissione sarà calcolata sul valore delle Notes acquistate sul SeDex nel Periodo Rilevante.

Oltre a quanto sopra menzionato, per quanto a conoscenza dell'Emittente, nessun soggetto coinvolto nell'emissione delle Notes ha un interesse rilevante per l'offerta, compresi interessi confliggenti.
